WHAT IS STEALTHBOND® ?

StealthBond® is an advanced metal roofing system that uses structural adhesive technology for metal roofing installations. The patented StealthBond® system consists of 3 components: the StealthConnector®, StealthBond® adhesive and StealthBond® metal roofing panels. Roofing contractors can now eliminate exposed fasteners on traditional 5V Crimp and 3ft Ribbed metal roofing panels, trims and flashings with our high-strength structural adhesive metal roofing system.

The StealthBond® system is available in the following metal roofing profiles:

- 5V crimp panel profile
- 3Ft ribbed panel profile
- 24" Standing Seam

Research and Development are continuously updating the StealthBond Product line. Contact us for the latest new product info.

Give Homeowners a product your competitors can't

"I love the idea of StealthBond® especially in the 5V Crimp Panel. The 5V Crimp Panel is indicative of the Florida "Key West" style Metal Roof that everyone knows and likes. But at the same time everyone knows that system is problematic because of all the screws. Everywhere there is a screw, everywhere there is a hole there is a potential maintenance related issue. The StealthBond® System with the 5V Crimp Panel eliminates all of that. You get the look of the 5V Crimp and eliminate all maintenance related issues."

- Matthew Housh, Arry's Roofing Services Inc.

YOUR BUSINESS

THE NEW INDUSTRY STANDARD

STEALTHBOND'S® INNOVATIVE ADHESIVE TECHNOLOGY GIVES CONTRACTORS AN ENTIRELY NEW PRODUCT OFFERING

EXPOSED FASTENER PANELS

Exposed fastener panels are panels that require screws to be fastened through the metal panel. Fasteners are present and in plain site.

- More cost effective than concealed fastener systems
- Exposed fastener systems are more susceptible to leaks from fasteners backing out

- 5V Crimp Panel
- R Panel
- Corrugated Panel
- PBR Panel
- Ribbed Panel

Available from various Metal Roofing Manufacturers and Distributors

CONCEALED FASTENER PANELS

Concealed fastener panels are typically panels with interlocking raised seams. Fasteners are present, however, they are concealed.

- Concealed Fasteners
- Lasting water tight application
- Hidden clips allow for expansion and contraction of panels

- Standing Seam Panel

Available from various Metal Roofing Manufacturers and Distributors

CONCEALED ADHESIVE PANELS

Concealed Adhesive Panels are panels that utilize adhesive instead of screw fasteners. Fasteners are not present and adhesive is concealed.

- Eliminates thousands of screw penetrations
- Allows for expansion and contraction of panels
- No exposed fasteners mean superior weathertightness

- 5V Crimp Panel
- 3ft Ribbed Panel
- Standing Seam Panel (24")

Sold exclusively through StealthBond® Authorized Dealer Installers

WHY NOT ADHESIVE?

"Why not use adhesive?" After all, structural adhesive technology has advanced tremendously in the last 5 years and it is used for bonding components on aircraft and space shuttles. Why not take advantage of this technology for metal roofing panels?

STRENGTH

–STEALTHBOND'S® ADHESIVE SYSTEM COVERS MORE SURFACE AREA FOR GREATER ATTACHMENT STRENGTH THAN TRADITIONAL THROUGH-FASTENER SCREW INSTALLATIONS. RECENT TESTS SHOW THAT TODAY'S STRUCTURAL ADHESIVES ARE STRONGER THAN SCREW FASTENERS.

-75

THE STEALTHBOND ADHESIVE RETAINS ITS PROPERTIES IN TEMPERATURES AS LOW AS -75° F

350

THE STEALTHBOND ADHESIVE RETAINS ITS PROPERTIES IN TEMPERATURES AS HIGH AS 350° F

200

THE STEALTHBOND® SYSTEM HAS BEEN PROVEN TO WITHSTAND WINDS IN EXCESS OF 200 MPH

*Depending on the building's location, exposure, and mean roof height.

[Can StealthBond® be installed over shingles?]

YES- Check out our StealthHat Accessory!

AGE OF THE ADHESIVE

THE STEALTHBOND® SYSTEM UTILIZES A 2-PART EPOXY STRUCTURAL ADHESIVE THAT HAS BEEN TESTED AND APPROVED FOR HIGH VELOCITY HURRICANE ZONES (HVHZ).

OUR RESEARCH AND DEVELOPMENT TEAM WAS CHALLENGED WITH THE TASK OF DEVELOPING A WAY TO UTILIZE STRUCTURAL ADHESIVE FOR METAL ROOFING PANELS.

AFTER EXTENSIVE RESEARCH AND TESTING A NEW METHOD TO INSTALL METAL ROOFING WAS BORN.

STEALTHBOND® IS THE METAL ROOFING INDUSTRY'S FIRST CONCEALED ADHESIVE SYSTEM UTILIZING STRUCTURAL ADHESIVE TECHNOLOGY.

BACKED BY THE BEST

STEALTHBOND® IS BACKED BY GIBRALTAR INDUSTRIES, A BILLION DOLLAR INTERNATIONAL COMPANY, AND IS PRODUCED IN JACKSONVILLE, FLORIDA.

GIBRALTAR INDUSTRIES IS A LEADING MANUFACTURER AND DISTRIBUTOR OF PRODUCTS FOR BUILDING MARKETS. GIBRALTAR SERVES A LARGE NUMBER OF CUSTOMERS IN A VARIETY OF INDUSTRIES THROUGHOUT THE WORLD FROM FACILITIES IN THE UNITED STATES, CANADA, CHINA AND JAPAN.

CONCEALED ADHESIVE SYSTEM

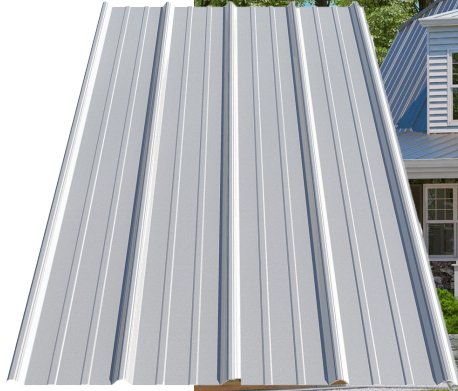

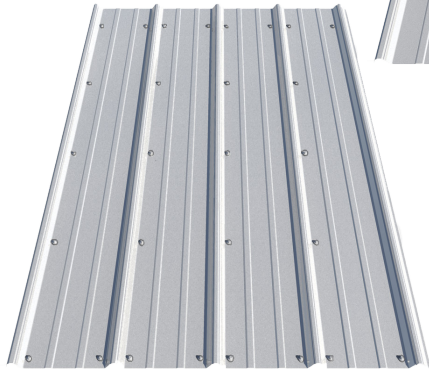

STEALTHBOND®

More than Adhesive

THE STEALTHBOND® SYSTEM CONSISTS OF 3 MAJOR COMPONENTS INCLUDING:

- STEALTHCONNECTOR®
- STEALTHBOND® ADHESIVE
- STEALTHBOND® METAL ROOFING

STEALTHBOND® IS A SYSTEM, NOT JUST AN ADHESIVE; HOWEVER THE STEALTHBOND® ADHESIVE IS A KEY COMPONENT OF THE SYSTEM IN ELIMINATING FASTENERS.

3FT RIBBED

STEALTHCONNECTOR®

THE STEALTHCONNECTOR®, IN CONJUNCTION WITH THE ADHESIVE, ACTS AS A CONTINUOUS ANCHOR TO PROVIDE AN EFFICIENT STRUCTURAL ANCHOR SURFACE FOR METAL ROOFING PANELS.

STEALTHBOND® ADHESIVE

STEALTHBOND® IS A STRUCTURAL ADHESIVE SYSTEM FOR METAL ROOFING. WHEN USED IN CONJUNCTION WITH THE STEALTHCONNECTOR® THIS SYSTEM PROVIDES A MEANS TO INSTALL METAL ROOFING PANELS WITHOUT UNSIGHTLY SCREWS.

STEALTHBOND® METAL ROOFING

METAL ROOFING PANELS, AVAILABLE IN DIFFERENT PROFILES, LAY INTO THE ADHESIVE AND ADHERE SECURELY TO THE ROOF.
